Oral Health Care for Children with Special Health Care Needs - 2 - Funding for creating this publication was made possible by The Association of State and Territorial Dental Directors (ASTDD)

Special Needs - Texas Oral Health Coalition, Inc

Due to increasing incidence and improved survival, greater numbers of children with congenital heart disease (CHD) are surviving to their teenage years and beyond. This patient group have complex medical needs that interact with the emotional and developmental challenges of adolescence. Teenagers with CHD are at increased risk of both neurodevelopmental and emotional disorders.

Could you be pregnant? Some early pregnancy symptoms may show up around the time you've missed a period " or a week or two later. About 60 percent of women have early pregnancy symptoms by the time they're 6 weeks along, and roughly 90 percent have them by the time they're 8 weeks.

Pregnancy symptoms: Top 11 early signs of pregnancy

What do food cravings mean? Some nutritionists and healthcare providers believe that certain cravings are meaningful. For example, some experts think that craving large amounts of ice and nonfood substances, such as laundry starch and dirt or clay (a condition called pica), are linked to an iron or zinc deficiency, though there's not enough research to support a cause and effect relationship.

Food cravings and what they mean | BabyCenter

Sense of smell. The perception of odors, or sense of smell, is mediated by the olfactory nerve. The olfactory receptor (OR) cells are neurons present in the olfactory epithelium, which is a small patch of tissue at the back of the nasal cavity. There are millions of olfactory receptor neurons that act as sensory signaling cells.
