Exam specifications. For more information on the format of the exam and the topics covered, download the PE Control Systems Engineering exam specifications (PDF).. PE exam specifications are posted 6 months before the exam administration.

### **NCEES PE Control Systems Engineering exam information**

Systems engineering is an interdisciplinary field of engineering and engineering management that focuses on how to design and manage complex systems over their life cycles. At its core, systems engineering utilizes systems thinking principles to organize this body of knowledge. Issues such as requirements engineering, reliability, logistics, coordination of different teams, testing and ...

### **Terminology and Symbols in Control Engineering**

International Journal of Systems Engineering (IJSE) proposes and fosters discussion on the evolution and current developments in the field of engineering management. Coverage includes but not limited to main branches of engineering, relationships with other disciplines, the development of medical technology, thermal energy and engineering, heat engineering, information systems, human-computer ...

### **International Journal of Systems Engineering :: Science**

Automation, Control and Intelligent Systems (ACIS) provides readers with a compilation of stimulating and up-to-date articles within the field of intelligent systems. The focus of the journal is on high quality research that addresses paradigms, development, applications and implications in the field of intelligent systems. All research articles in ACIS will undergo rigorous peer ...

### **Automation, Control and Intelligent Systems :: Science**

In today's global economy, the most successful engineering managers rely on a combination of technical skills and business principles. Industrial and systems engineering (ISE) aims at imparting fundamental knowledge to develop the ability to address complex industrial issues, highlighting how to design, run, control and optimise production systems.

### **International Journal of Industrial and Systems Engineering**

Introduction. The International Federation of Automatic Control was founded in September 1957. Our multinational federation is concerned with automatic control and its representation in the fields of engineering, science and the impact of control technology on society.

## **International Federation of Automatic Control - IFAC**

ACSE is an educational and research unit, part of the Faculty of Automatic Control and Computers at Politehnica University of Bucharest. We teach automatic control and related topics for undergraduate, master and Ph.D. students.
