### **Civil Nuclear Overview - International Trade Administration**

In your third year you will begin to focus on nuclear engineering, completing a mixture of core and optional modules. You also have the opportunity to build on the BEng with a relevant four-month placement in industry or research.. Your study reaches Master's level in the final year, with a wide choice of advanced modules and a substantial nuclear-focused research project.

Engineering physics or engineering science refers to the study of the combined disciplines of physics, mathematics and engineering, particularly computer, nuclear, electrical, electronic, materials or mechanical engineering. By focusing on the scientific method as a rigorous basis, it seeks ways to apply, design, and develop new solutions in engineering.
