Sociology is the scientific study of society, patterns of social relationships, social interaction, and culture of everyday life. It is a social science that uses various methods of empirical investigation and critical analysis to develop a body of knowledge about social order, acceptance, and change or social evolution. While some sociologists conduct research that may be applied directly to ...

Security Patterns Patterns are a beautiful way of organizing and formalizing proven solutions to reoccurring problems. They were developed by Christopher Alexander in the 1970s. Alexander observed and documented the relationships that existed between things: objects, spaces, light, people, passages, and moods.

A market is one of the many varieties of systems, institutions, procedures, social relations and infrastructures whereby parties engage in exchange. While parties may exchange goods and services by barter, most markets rely on sellers offering their goods or services (including labor) in exchange for money from buyers. It can be said that a market is the process by which the prices of goods and ...
