Knowledge in perception and illusion 2 different from the flat ghostly images in eyes. Some phenomena of illusion provide evidence for the uses of knowledge for vision;

### **Knowledge in perception and illusion - Richard Gregory**

Face perception is an individual's understanding and interpretation of the face, particularly the human face, especially in relation to the associated information processing in the brain.. The proportions and expressions of the human face are important to identify origin, emotional tendencies, health qualities, and some social information.

### **Face perception - Wikipedia**

Motion perception is the process of inferring the speed and direction of elements in a scene based on visual, vestibular and proprioceptive inputs. Although this process appears straightforward to most observers, it has proven to be a difficult problem from a computational perspective, and extraordinarily difficult to explain in terms of neural processing.

What are hallucinogens? Hallucinogens are a diverse group of drugs that alter perception (awareness of surrounding objects and conditions), thoughts, and feelings. They cause hallucinations, or sensations and images that seem real though they are not. Hallucinogens can be found in some plants and mushrooms (or their extracts) or can be human-made.

In 2013 I retired as director of the Laboratoire Psychologie de la Perception (LPP), which studies human perception both in babies and adults. Since then I have been pursuing a 5-year European Research Council Advanced project ("FEEL") on the sensorimotor approach to consciousness and "feel". With a group of 3-8 postdocs and assistants we have been working to develop the sensorimotor theory on ...
