Applied research. Applied research is the practical application of science. It accesses and uses accumulated theories, knowledge, methods, and techniques, for a specific, state-, business-, or client-driven purpose. Applied research is contrasted with pure research (basic research) in discussion about research ideals, methodologies, programs, and projects.

Applied science - Wikipedia

We work with customers across four major industries to develop solutions to their toughest process and production challenges. All of our customers use sophisticated advanced technology in their processes.

MKS Instruments - 1579A General Purpose Mass Flow

METTLER TOLEDO (NYSE: MTD) is a multinational manufacturer of scales and analytical instruments. It is the largest provider of weighing instruments for use in laboratory, industrial, and food retailing applications. The company also provides various analytical instruments, process analytics instruments, and end-of-line inspection systems.

Intelligence To be intelligent you first have to know what being Intelligent is. And you also have to know what being ignorant is. Ignorant is just another word for "Not knowing".But not knowing is not always obvious or clearly understood.That's because learning is not fully understood. The more you learn the more you should realize what you didn't know.

Intelligence Smart Genius Gifted Wisdom Ignorance
