Product Guide - MEGlobal

May cause slight temporary eye irritation. Mist may cause eye irritation. Skin corrosion/irritation Prolonged contact may cause skin irritation with local redness.

SAFETY DATA SHEET: TRIETHYLENE GLYCOL

An antifreeze is an additive which lowers the freezing point of a water-based liquid and increases its boiling point. An antifreeze mixture is used to achieve freezing-point depression for cold environments and also achieves boiling-point elevation ("anti-boil") to allow higher coolant temperature. Freezing and boiling points are colligative properties of a solution, which depend on the ...

Antifreeze - Wikipedia

Structure and properties. Propylene glycol is a clear, colorless and hygroscopic liquid. Propylene glycol contains an asymmetrical carbon atom, so it exists in two enantiomers. The commercial product is a racemic mixture. Pure optical isomers can be obtained by hydration of optically pure propylene oxide. The freezing point of water is depressed when mixed with propylene glycol, owing to the ...

Propylene glycol - Wikipedia

The following list identifies end-use applications that are NOT supported by MEGlobal for ethylene glycol products, monoethylene glycol (MEG) and diethylene glycol (DEG) marketed by MEGlobal

Product Guide - MEGlobal

Use: Applications for FernTherm-EG Inhibited include closed loop heating and cooling systems, solar heating, thermal energy storage, sidewalk subsurface heating, refrigeration warehouse floor heating, ice rinks, freeze and burst protection in semi-sedentary systems, various deicing functions, cold room dehumidifying, and more.

It's been a while since we heard news about Brazilian Blowout, the controversial hair straightening treatment that brings up the philosophical question "What does it mean to be formaldehyde-free?". But now the company has announced a new hair straightening product, Brazilian Blowout Zero, that is formulated without methylene glycol.

Brazilian Blowout's New Formula, sans Methylene Glycol | I
