Theoretical frameworks transformations. This special issue is grounded on the profound transformations that have occurred in the fields of early childhood education, child development, psychology, language arts, emergent literacy, and literacy education.

## **Literacy and language: new developments in research**

Overview. Many factors contribute to gaps in care during critical transitions. Poor communication, incomplete transfer of informaton, inadequate education of older adults and their family caregivers, limited access to essential services, and the absence of a single-point person to ensure continuity of care all contribute transition-associated problems (Naylor, 2002; Naylor & Keating, 2008).
