role, we have chosen to follow the imbrolios wherever they take us. To shuttle back and forth, we rely on the notion of translation, or network. More supple than the notion of system, more historical than the notion of structure, more empirical than the notion of complexity, the idea of network is the Ariadne's thread of these interwoven stories.

have been two subsequent peaks of en-thusiasm. During the late 1970s and early 1980s the world was awash with discussion of the information society, post-industrial society, and the micro-computer revolution. There followed, in the 1990s, a wave of enthusiasm for the transformative potential of computer networks and the newly invented World Wide Web.
